JewelzArt

KidzArt

You can create beautiful jewelry with store front worthiness! We will make jewelry with seed bead weaving techniques that will "wow" your friends and family. Once you learn the pattern you can keep creating them for yourself or others. You will use glass beads and learn patience and perseverance!

After School Hoops:

One-on-One Basketball

Have fun learning to become a better basketball player at our after school clinics, through drills, fun contests, and team competition. For beginners and future pros come out to experience playing basketball while having a great time and being part of a team.

Stop Motion Animation

RIMOSA

Explore the science and art of animation! Create short films using IPODs, tripods, found objects, and handmade props. Learn the tricks of different types of stop-motion animation, from object, cut paper, to pixilation. Act as the director, puppet-maker, set-designer and cinematographer for your films. By the end of the program, you will have several animated short films to share with your friends and family.

Monday/Wednesday

Tuesday/Thursday

<p>Fashion Makers (90 min) <i>Fountain Street Creative</i> Become a Design Star! Learn the art of fashion design to create your own style by applying your new knowledge of the principles and elements of design, use of styles, colors, seasons, fabrics, textures and trend mood boards. Grab the opportunity to draw your own designs, look into the history of the fashion industry, and advance on crafting techniques alongside an industry designer.</p>	<p>Cells & Selfies (45 min) <i>15 Minute Field Trips</i> Shrink a "cell" phone, draw and collage a solar-powered "selfie", design a microscope kaleidoscope, super-size a cell, and create some cell "slime" in this art-meets-science virtual program. Materials provided.</p>
<p>Pets & Vets (45 min) <i>Roger Williams Park Zoo</i> Join educators from the Roger Williams Park Zoo to build science skills that will help you work toward a career with animals. You will build connections with youth that have similar interests while also getting an opportunity to meet animals each week.</p>	<p>Young Actors Studio (45 min) <i>Trinity Repertory Company</i> Have you ever wanted to be an actor? Grab the spotlight and join the Young Actors Studio! In this AfterZone program, you will learn the skills necessary to become a professional actor while playing games, acting in short scenes and writing your own plays or movies! All artists, actors or otherwise, are encouraged to be part of the Young Actors Studio!</p>
<p>Cheerleading (45 min) <i>ASTRO</i> The Cheerleading Program will teach a combination of tik-tok dances and basic cheers! Participants will prepare to perform their cheer routine for an audience whether that be virtual or live. This program will prove that cheerleading is in fact a physical and mental sport and that not all cheerleaders are the same! Join the team to become a better athlete while developing trust, dedication and determination within yourself and towards your teammates.</p>	<p>Explore the Bay (45 min) <i>Save the Bay</i> Zoom into Narragansett Bay and become a marine biologist! At Save the Bay you will discover what sea creatures call our bay home as we explore some of their favorites habitats in our estuary. Each week join us as we meet new animals, play fun games, and create ocean crafts!</p>
<p>My Moving World (45 min) <i>Festival Ballet</i> Movement is all around us: in the trees, the ocean, and on city streets. Join Festival Ballet Providence in an exploration of movement using the elements of dance. Learn how to interpret and create movement like a dancer and choreographer. We will explore the way animals and people move in their natural habitats and use that exploration to create our own dances.</p>	<p>KPASA - Talk Radio Sharing Your Story (45 min) <i>The Empowerment Factory</i> **6th grade only** KPASA! Qué Pasa? What's up? Imagine being a radio personality, sharing stories, ideas and opinions and interviewing others. Using the medium of voice, we will tell and record stories that inspire and inform others. Topics might include kindness, friendship, family, courage and whatever else students want to talk about.</p>
<p>Creative Engineering (90 min) <i>RIMOSA</i> Attention Artists and Inventors! Come join RIMOSA as we build, create, experiment, and re-imagine! In our virtual Creative Engineering Series Pt.1 you will engineer a marble roller-coaster and build whirly-gigs and sculptures that move in the wind. Have you ever wanted to hurl things through the air with a miniature catapult? We'll do that too!!! We'll be designing portable knitting machines with recycled materials so you can later yarn-storm your home. Also, we'll create structures using nature's materials in our Nature Inspired Art program. Material kits that you can keep will be provided!</p>
