**Monday/Wednesday**

**Tuesday/Thursday**

<p><b>Fashion Makers</b> (90 min) <i>Fountain Street Creative</i> Become a Design Star! Learn the art of fashion design to create your own style by applying your new knowledge of the principles and elements of design, use of styles, colors, seasons, fabrics, textures and trend mood boards. Grab the opportunity to draw your own designs, look into the history of the fashion industry, and advance on crafting techniques alongside an industry designer.</p>	<p><b>Cells &amp; Selfies</b> (45 min) <i>15 Minute Field Trips</i> Shrink a "cell" phone, draw and collage a solar-powered "selfie", design a microscope kaleidoscope, super-size a cell, and create some cell "slime" in this art-meets-science virtual program. Materials provided.</p>
<p><b>Pets &amp; Vets</b> (45 min) <i>Roger Williams Park Zoo</i> Join educators from the Roger Williams Park Zoo to build science skills that will help you work toward a career with animals. You will build connections with youth that have similar interests while also getting an opportunity to meet animals each week.</p>	<p><b>Young Actors Studio</b> (45 min) <i>Trinity Repertory Company</i> Have you ever wanted to be an actor? Grab the spotlight and join the Young Actors Studio! In this AfterZone program, you will learn the skills necessary to become a professional actor while playing games, acting in short scenes and writing your own plays or movies! All artists, actors or otherwise, are encouraged to be part of the Young Actors Studio!</p>
<p><b>Cheerleading</b> (45 min) <i>ASTRO</i> The Cheerleading Program will teach a combination of tik-tok dances and basic cheers! Participants will prepare to perform their cheer routine for an audience whether that be virtual or live. This program will prove that cheerleading is in fact a physical and mental sport and that not all cheerleaders are the same! Join the team to become a better athlete while developing trust, dedication and determination within yourself and towards your teammates.</p>	<p><b>Explore the Bay</b> (45 min) <i>Save the Bay</i> Zoom into Narragansett Bay and become a marine biologist! At Save the Bay you will discover what sea creatures call our bay home as we explore some of their favorites habitats in our estuary. Each week join us as we meet new animals, play fun games, and create ocean crafts!</p>
<p><b>Dance Makers</b> (45 min) <i>Festival Ballet</i> Movement is all around us: in the trees, the ocean, and on city streets. Join Festival Ballet Providence in an exploration of movement using the elements of dance. Learn how to interpret and create movement like a dancer and choreographer. We will explore the way animals and people move in their natural habitats and use that exploration to create our own dances.</p>	<p><b>River Adventurers</b> (60 min) <i>Woonasquatucket River Watershed Council</i> Become a River Adventurer and come explore the Woonasquatucket River, which is right in your backyard! Learn all about the animals who call the river home, how the river has been changing, and work on a project to learn how you can help make a difference in the community!</p>
<p><b>Creative Engineering</b> (90 min) <i>RIMOSA</i> Attention Artists and Inventors! Come join RIMOSA as we build, create, experiment, and re-imagine! In our virtual Creative Engineering Series Pt.1 you will engineer a marble roller-coaster and build whirly-gigs and sculptures that move in the wind. Have you ever wanted to hurl things through the air with a miniature catapult? We'll do that too!!! We'll be designing portable knitting machines with recycled materials so you can later yarn-storm your home. Also, we'll create structures using nature's materials in our Nature Inspired Art program. Material kits that you can keep will be provided!</p>	<p><b>Beat the Streets Providence</b> (60 min) Time to get physical as this interactive workout is one hour long. There are 25 different workouts in this session with 5 breaks. You don't have to be a wrestler to participate in these workouts as they can work for anybody and is not wrestling specific but can be. This program is a great way to get up and get the body going as we will be focusing on motion, movement and fundamental athletic movements, as well as upper body, lower body and core exercises. Think you can handle it?  **Also includes an optional Wednesday development day</p>

<p><b>KPASA - Talk Radio Sharing Your Story</b> (45 min)  <i>The Empowerment Factory</i>          KPASA! Qué Pasa? What's up? Imagine being a radio personality, sharing stories, ideas and opinions and interviewing others. Using the medium of voice, we will tell and record stories that inspire and inform others. Topics might include kindness, friendship, family, courage and whatever else students want to talk about.</p>	<p><b>Hip Hop Healthy</b>  <i>SmartTest, Inc.</i>          If you love to move, and want to learn how to "wave", "pop", and perform other hip hop moves as a way to help keep your body healthy, Hip Hop Healthy is the program for you! You will have a chance to choreograph a dance piece to rehearse and perform.</p>
<p><b>Mixed Media: DIY Projects</b>  <i>Providence ;CityArts! for Youth</i>          Develop your artistic talents and learn essential professional skills for future creative careers. Learn art techniques in photography, drawing, printmaking and more with your teaching artist. Hear from local artists and creative business leaders on what it takes to sell and market your own artwork. Create sellable visual art, textiles, art objects, and wearable art products to showcase at virtual pop-up events throughout the year!</p>	<p><b>JewelzArt</b> (45 min)  <i>KidzArt</i>          You can create beautiful jewelry with store front worthiness! We will make jewelry with seed bead weaving techniques that will ""wow"" your friends and family. Once you learn the pattern you can keep creating them for yourself or others. You will use glass beads and learn patience and perseverance!           *Begins at 3:15</p>
<p><b>One on One Sports Performance Training</b> (45 min)  <i>One on One Basketball</i>          One on One sports performance training focuses on improving speed, power, agility, and quickness. Our main goal is to enhance an athlete's ability to perform efficiently with sports related movements. This improved performance will help with such as sports as Basketball and Soccer. Come join us for some skill work while having an enjoyable experience.</p>	<p><b>Homework Club</b>  <i>PASA &amp; Providence College</i>          Thursdays ONLY          4:00-4:45           Support available for any and all school work</p>
<p><b>Let's Dance</b> (60 minutes)  <i>Hispanic United Development Organization</i>          Zumba! Hip Hop! Latin Dance!</p>	
<p><b>XR Academy</b> (60 min)  <i>PVD Young Makers</i>          Ever wanted to create your own video game?! Learn and experiment with the technologies of Virtual and Augmented Reality. Participants will learn entry level designs of 3D worlds and bring elements in the world to life with coding. Afterwards, participants will be able to immerse themselves and navigate the technologies and customize their experience.</p>
